

# Veterinary Pathologist

## Job offer

### AnaPath Research

AnaPath Research is a CRO located in Barcelona, with extensive experience in carrying out preclinical trials for pharmaceutical laboratories, the chemical industry and other research organizations. In our more than 30 years of activity we have worked with the main pharmaceutical industries being part of different multinationals (RCC, Harlan and Envigo). In November 2019, AnaPath Services acquired the company and re-founded it as AnaPath Research, thus undertaking together a new project of scientific quality and close contact with new and old sponsors.

With a multidisciplinary team of scientific experts, AnaPath Research covers most fields of preclinical pharmaceutical development and chemical and food safety.

### Department

AnaPath Research's Pathology, Necropsy and Histology department provides service to General Toxicology, cooperating closely with the AnaPath Services team, well known for its vast experience in toxicological histopathology.

The local department consists of a team of multidisciplinary technicians with an average experience of 15 years in necropsies on a wide range of animal species, sampling, histological processing and slide quality checking for delivery to the site's pathologist, certified by the European College of Veterinary Pathologists.

### Position

A veterinary pathologist is required, with at least 3 years of experience ideally in the field of toxicological and experimental pathology.

### Responsibilities

Pathological evaluation of preclinical exploratory and regulatory studies in a wide range of species.

Collaboration with local team and clients.

Scientific support to the Pathology, Necropsy and Histology Department

Collaboration in the implementation of new techniques in necropsy and histology.

Management or collaboration in the management of necropsy and histology tasks: supervise study protocols and data derived from studies, coordinate the training of collaborators, have good knowledge of data collection software, ensure compliance with quality standards.

### Requirements

Minimum 3 years of experience, ideally in the field of toxicological and experimental pathology

ECVP certification or equivalent is a plus

Ability to work as part of a team

Ability to adapt to different tasks and manage work peaks

Highly motivated
